

# Electrical Servicing and Installation

Applied Automation Limited is 100% New Zealand owned. Our company prides itself on a commitment to quality and customer satisfaction. Our services range from the simple installation of a single outlet or light fixture through to the design, manufacture and installation of machine control systems.

Applied Automation's Electrical Servicing Division specialises in the following areas:

- 24hr, 7day Commercial & Industrial Breakdown Service
- Variable Speed Drives
- DC Drives
- Machine Control Systems
- Conveyor Control Systems
- Electrical Design
- Industrial Control Panel Design & Manufacture
- Switchboard Design & Manufacture
- Electrical Renovation
- Preventative Maintenance
- Electrical Installation Services
- Portable Appliance Testing (PAT)
- C-Bus Building Automation

Applied Automation Limited works closely with businesses to meet the needs required to keep their operations running at peak efficiencies. We have an extensive team of service professionals, trained and equipped to meet your business demands no matter the project size or complexity. We have a full fleet of service vehicles on the road so you can expect a prompt response to all of your electrical needs. Our fully equipped workshop is centrally located in Mandeville Street.

Our understanding of the pressures within the Industrial Sector, such as implications of downtime and health and safety issues, have guided the development of our company strategy which is to provide our customers with the highest level of quality and workmanship. Applied Automation Limited is a member of the Electrical Contractors Association of New Zealand (ECANZ) and is proud of our MASTER ELECTRICIAN status. Our company has a comprehensive Health and Safety policy in place and fully supports our customer's site safety initiatives. A full copy of our Health & Safety policy and a certificate of currency for our Public Liability cover are available on request.

Contact Applied Automation Limited with your electrical application or service need and we will promptly provide you a cost effective solution.
